

CANTINA DANESE

**Italian Wine.
Tailored for Your Brand.**

Private label and high-volume bottled wine solutions since 1950.

International Bulk Wine & Spirit Show – San Francisco, USA

A family-owned company built for industrial scale

Based in Roncà, Verona — serving international wine businesses since 1950.

1950

Founded in Verona

70+ years of experience

Family ownership

International B2B focus

Private label focus

Approximately 99% of our production is dedicated to third-party brands and customer projects.

International reach

Our wines are distributed worldwide through major wine groups and retail-oriented partners.

Own vineyards + network

20 hectares, around 30 growers and long-standing sourcing relationships across Italy.

One production partner

Wine sourcing, packaging, bottling, quality control and delivery managed through one team.

OUR PROMISE

You focus on the market. We take care of the product.

A single partner for complex, high-volume Italian wine programs.

One partner. Fewer interfaces. Lower operational complexity.

We coordinate the entire product journey from the selected wine to the finished bottle.

Scale for today. Headroom for tomorrow.

Built to support high-volume programs and future growth.

18M

bottles produced per year

25M+

annual production capacity

187 ml–2 L

supported bottle formats

3

wine styles: still, semi-sparkling, sparkling

Bottle flexibility

Bordeaux

Burgundy

Conical

Cylindrical

Custom compatible shapes

A broad Italian wine portfolio through trusted relationships

Decades of partnerships allow us to identify and secure the right wine for each project.

Our real asset is the network.

Long-standing relationships with growers, bulk wine suppliers and regional partners give us access to a broad range of Italian appellations and styles.

- Garganega & Veneto wines
- Chianti and Tuscan styles
- Nero d’Avola and Sicilian wines
- Major Italian appellations
- Prosecco Frizzante

Note: sparkling Prosecco is not part of our current production authorization.

Industrial organization with family-business responsiveness

We adapt product, packaging and operations to the customer's market.

Product

Wine style, profile, specification and target price

Packaging

Bottle, closure, label, capsule, carton and configuration

Operations

Production priorities, volumes and delivery planning

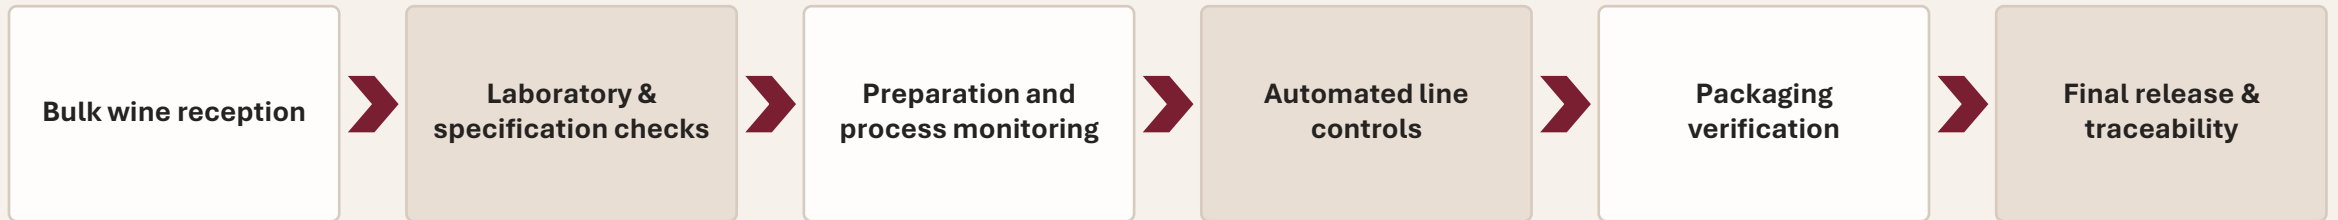

Decision-making

Direct access to a responsive, family-owned management team

Industrial capacity does not mean rigid service.

Controlled from incoming bulk wine to finished-product release

Automated inspections, internal oversight and internationally recognized standards.

Internal quality manager

Dedicated responsibility for compliance, documentation, audits and product release.

Automated controls

Technology-supported checks across the bottling line reduce variability and improve consistency.

Unannounced audits

Standards are maintained every day — not only when an inspection is scheduled.

CERTIFIED STANDARDS

Recognized systems supporting food safety, sustainability and ethical performance

Use official scores and grades only when the current certificates are available.

IFS FOOD

Certified at the highest achieved rating

BRCGS FOOD SAFETY

Certified at the highest achieved grade

EQUALITAS

Sustainability standard for the wine sector

SMETA

Ethical and social audit planned

SMETA is an audit methodology, not a product or management-system certification.

Beyond Bottling: Storage and Logistics Support

A stronger service platform for international customers and high-volume programs.

7,000+ m²/75,347+ ft²

covered facilities

Storage space for finished products, dry goods and operational flexibility.

CUSTOMS-BONDED

warehouse

Support for export-oriented flows and international shipment planning.

LOGISTICS

coordination

Flexible shipment scheduling and coordination according to customer needs.

We do not stop at bottling: we can store, manage and coordinate the shipment of finished products.

Reliability is the product behind the product

Major wine groups continue working with us because execution is dependable.

01

Problem solving

We act quickly when production, supply or packaging issues arise.

02

Product compliance

We deliver according to the agreed technical and commercial specifications.

03

On-time delivery

We plan and execute production to protect customer deadlines.

“We solve problems before they become your problems.”

LET'S BUILD YOUR NEXT ITALIAN WINE PROGRAM.

High-volume private label. Complete packaging. Reliable execution.

Three questions to start:

1. Which Italian wine categories are you looking for?
2. Do you buy bulk wine or finished bottled products today?
3. What volume, price point and launch timing do you need?

CANTINA DANESE

Industrial capacity.
Family-owned
flexibility.
Reliable execution.

Roncà, Verona, Italy
